WHAT MAKES OUR CLINIC DIFFERENT?

Flexible fee of \$20-\$40

Pay what you are able.

No questions asked.

The average cost of acupuncture in America is \$60 to \$90 per treatment. With those fees, most people cannot afford enough treatment to achieve lasting results. We are modeled after clinics in Asia where patients receive low-cost treatment in a relaxed community setting. We are open four evenings a week plus Saturdays and walk-ins are always welcome.
